Archana Printers., Okhla, New Delhi-110020.

Preface

The National Institute of Education Planning & Administration has been actively engaged in research, teaching and capacity development activities and in advisory services & consultancy to the governments & public organizations at sub-national, national & international levels. Over the long years of its active engagement the institute emerged as a major think-tank & an apex institution engaged in the area of education policy, planning & administration. NIEPA is one of the few institutions analyzing educational issues from an interdisciplinary & social science perspective. The publications brought out by NIEPA is a standing example of this approach and research explorations based on the approach.

I would like to acknowledge the contributions made by our former Directors/Vice-Chancellors and faculty members in shaping the orientation of this organization to these concerns and elevating the level of discourse to a higher level.

Besides offering research & professional support & advisory services to the government of India, various state governments & international bodies in their various research & policy related activities, the institute continues to get engaged in capacity development programmes of educational administrators and functionaries in public education departments in the country & international levels. During the last five years 561 training/capacity development programmes/consultative meets/ seminar and conferences have been organized in which around 33573 participants participated. During the period a large number of publications have been brought out which includes books, research papers in edited volumes, and journals, Research reports, policy papers, policy briefs, occasional papers etc. A large number of researches both by the faculty and research scholars have also been completed. Though NIEPA has a small component of research students, the completion rate of M. Phil and Ph.D dissertation is noteworthy.

This concise form of compendium gives an account of research contributions & a variety of capacity development programs conducted by NIEPA during last five years coving the period from 2016-2021 (this excludes the entries already covered in the earlier Compendium of Research and Publication of the period 2006-2016). I would like to place on record my immense appreciation of the efforts made by Professor Kumar Suresh in taking initiative for the preparation of the Compendium and giving the final shape in this form. The efforts made by his research staff, Dr. Bishnu P. Mishra, Ms. Monika, Mr. Mrinmoy Dev, and Mr. Prince Verma in compiling the information from various sources and putting them together in the publication ready format is also appreciated. I also appreciate the support of NIEPA administration and its various sections in providing relevant information and supporting this endeavour Contribution of the Publication unit of NIEPA in bringing out the Compendium in a record time is thankfully acknowledged.

N. V. Varghese

Institutional Publications of NIEPA

Institutional Publications of NIEPA

NIEPA publishes journals, Reports of Research Studies, Reports of School based Data, Occasional papers, Newsletter for wider dissemination of research, data and information related to its area of expertise.

Many notable publications have been brought out by the institution. Some of the notable publications include:

1. NIEPA as ANTRIEP Focal point collaborated with European Union brought out a monograph on Role of Head Teachers in School Management in India – Case Studies from six states
2. NIEPA also brought out a set of ANTRIEP Modules along with Synthesis Report on Secondary Education in collaboration with UNESCO-IIEP (Paris).
3. Another set of Reports under the project 'Create' for Centre for International Education, University of Sussex, UK, were brought out as co-publication, as research monographs.

Annual Publication of Reports

NIEPA in collaboration with the Ministry of Education (erstwhile Ministry of Human Resource Development), Government of India, used to collect school wise data on different parameters of education till 2017. Now it is done by the Ministry of Education, Govt. of India, as Udise plans. The data used to be compiled and brought out in the form of Annual Reports. The Reports are major source of reference. The Reports are widely cited in both scholarly publications and policy documents.
