Fig 11: Give three suggestions to improve your study and research experience at NIEPA:

Suggestions given by students:

Hybrid Academic Gatherings: One student suggests adopting a hybrid mode for academic gatherings, especially beneficial for part-time scholars.

Student Exchange Programs: There is a call for more student exchange programs, both within and outside India, to enhance exposure and learning.

International Collaboration: Emphasising collaboration with foreign universities and initiating programs like international seminars and conferences is suggested.

Remote Access to Journals: Students suggest providing remote access to online journals and e-contents for those on fieldwork or during the thesis submission period. Enabling publication of students should be attempted.

Library facilities: Provide more seating space in the library. Instead of round tables, small cubicles can be designed so that more students can be accommodated in the limited available space. Library timing should be increased.

Healthy Food Options: Some students point out the limited availability of healthy food options in the canteen and suggest a diverse menu.

Active Student Forum: Encouragement is given for an active student body/forum to organize events and collaborate on initiatives.

Overall, the student satisfaction survey 2022-2023 of NIEPA presents a very positive picture about teaching-learning, opportunities for research and development of students. It also indicates a very healthy mentor-mentee relationship between Supervisors and scholars. Areas indicated above for further improvement by students is being attempted by NIEPA in a serious, time bound and steadfast manner.
