# Capacity Development Programme in Educational Planning and Administration for the Principals of Ayurveda, Unani, Siddha and Sowa-Rigpa Colleges

**(24 -28 July, 2023)**

## Background

The Indian system of medicine has a long-standing and recorded history of its existence for the past many centuries. It has played important role in health care and healing over a period of time. Despite its long roots in antiquity supported by ancient texts, oral traditions and established practices, the system has been largely neglected by the colonial design of knowledge system. The perpetual neglect of the Indian system of medicine and placing this system of medicine at low in the hierarchy of knowledge has put the system merely as an alternative system of medicine. Indeed, over the past few years attempts have been made to retrieve the relevance and value of the Indian system of medicine from its almost lost ground. A number of attempts have also been made by the government, well known philanthropists, established trusts and individuals to strengthen the system including its recognition. The creation of a separate Ministry of Ayush may be considered as an important step towards strengthening the system. Further to it, the creation of the National Commission for Indian System of Medicine (NCISM) as a statutory body, constituted under NCISM Act, 2020 may be considered as a move towards promoting the system with a robust system of quality regulation. The expansion of the system in terms of number of takers(clientele) is important but equally important is improvement of quality in the formal system of imparting education in the institutional context of universities, institutes or colleges. The NCISM through its different Boards and internal institutional mechanisms can play a pivotal role in this regard.

As stipulated in the NCISM Act, 2020, it is meant to promote Indian System of Medicine by improving access to quality and affordable medical education in all parts of the country. The act mandates that NCISM adopts an objective periodic and transparent assessment of medical institutions and facilitates maintenance of a medical register of Indian System of Medicine for India and enforces high ethical standards in all aspects of medical services. The Act provides for (a) the Board of Ayurveda; (b) the Board of Unani, Siddha and Sowa-Rigpa; (c) the Medical Assessment and Rating Board for Indian System of Medicine; and (d) the Board of Ethics and Registration for Indian System of Medicine. Each Board shall be an autonomous body which shall carry out its functions in accordance with the regulations made by the Commission.

The Act stipulates that the Board of Ayurveda and the Board of Unani, Siddha and Sowa-Rigpa shall work towards determining and promoting the standards of education at the undergraduate, postgraduate and super-speciality levels. The Boards shall have the function to develop a competency based dynamic curriculum at all levels. The Boards are also mandated to frame guidelines on setting up of medical institutions for imparting undergraduate, postgraduate and super-specialty courses

in Ayurveda, Unani, Siddha and Sowa-Rigpa. The Boards are empowered to set the standards for conducting of courses and examinations in medical institutions, set standards and norms for infrastructure, faculty and quality of education and research. Besides these the Boards are also given the responsibilities to facilitate development and training of faculty members in order to promote quality of education and research and creating a robust system of Indian Medicine.

All these initiatives are of utmost importance for improving the quality of education in the Indian system of medicine. But it is also important to ensure a well-functioning system of imparting and managing education at the level of institution. In this regard, the role of the institutional head becomes important. The institutional head is expected to lead the institution not only in its academic endeavour but also in ensuring institutional excellence. Needless to add, institutional excellence may be considered as a sum of quality in its holistic context of the institution. Of course, the institutional head is appointed on the basis of an established academic credentials, however, mere possession of academic qualifications and well-established academic credentials may not be the sufficient condition to ensure the much needed administrative and leadership skills. The empirical insights indicate that many times a good researcher/ teacher may prove to be an administrative failure. In such cases, the institutional vision, mission, mandate and roadmap for institutional excellence may put the institution under peril. Therefore, it is not only necessary to put an appropriate person in leadership role of the institution but also support the institutional leaders/heads with training and capacity development in the core areas of institutional planning and administration.

The above -mentioned context and the felt need of capacity building of the academic administrators has been a major driving factor the NCISM and NIEPA have come together to collaborate with each other to provide opportunity of capacity - building of the Principals of Colleges/ Deans of the faculty of Indian System of Medicine in the University System. As per the collaborative arrangement, nearly 550 such academic administrators/ institutional heads representing the four strands of Indian System of Medicine (Ayurveda, Unani, Siddha and Sowa-Rigpa) are proposed to be trained in the area of institutional planning and administration over a period of one year.

## Training Need Assessment

While designing the training Programme for the principals of the colleges under NCISM, NIEPA took an exercise of need assessment. The team of senior faculty members of NIEPA visited select institutions as sample representing different branches of Indian medicine as well as variety of locational context. Some of the institutions visited by the faculty include:

1. SGT University, Chandu-Budhera, Gurgaon, Haryana
2. Ayurved SevaSangh's Ayurved Mahavidyalaya, Nashik, Maharashtra
3. Santhigiri Siddha Medical College, Santhigiri P.O., Pothencode Thiruvananthapuram, Kerala
4. Central Institute of Higher Tibetan Studies (CIHTS) (Deemed to be University), Sarnath, Varanasi, Uttar Pradesh

5. Rajiv Gandhi Govt. Post-Graduate, Ayurvedic College, Paprola, Kangra, Himachal Pradesh
6. KLE University Shri BM Kankanwadi Ayurveda Mahavidyalaya Post Graduate Studies and Research Centre, Belagam, Karnataka
7. Govt. Nizamia Tibbia College, Charminar Hyderabad, Kotla Alijah, Moghalpura, Hyderabad, Telangana

During the visits to the colleges, a number of issues relating to the institutional functioning were discussed with the Principals, Deans, HoDs, Faculty, Students, and administrative staff. Some of the major inferences drawn on the basis of institutional visits and suggestions made by the Principals, four broad areas of capacity building is required for the institutional heads like Principals and Deans.

1. Strengthening of the institutions of the Indian System of Medicine in the emerging global context of education and in the light of the recommendations of the National Education Policy, 2020;
2. Management and Leadership Skills like change management, interpersonnel relations, human resource management, communications, team building, branding etc.;
3. Financial Management, Resource Mobilisation and Rules and Procedures of Financial transactions;
4. Administrative Rules and Procedures;

In the light of the suggestions and findings few themes have been identified for transaction.

### **Themes Identified for the Training Programme**
