

Corrigendum

This Corrigendum is a complete document to answer all the queries / representations received at NUEPA in responses to its tender for the supply, Installation, commissioning and Training of Automatic Digital Book Scanner.

The majority of the enquiries are about the specifications of the main components of the project:

1. Automatic Page Turning Digital Book Scanner - Speeds, Page Turning System, Page Size of Books to scan - Min. & Max, Thickness of Books, Lighting System, Range of Paper Thickness to scan etc.
2. Detailed Technical Specifications of:
 - Computer (PC) for Automatic page Turning Book Scanner
 - Server for Storage of Images and its Backup
 - Printer Size & Type (color/B&W, Laser/Inkjet)
 - Scanner (Flatbed or overhead or Special)
 - Software (OS for Scanner PC / Image Server, OCR, indexing, retrieval and image processing) and
 - Other related items.
3. Process of Scanning and storage.
4. Commercials :-
 - a. Mode of Dispatch / Deposit of tender - by Hand at NUEPA and/or Courier
 - b. Tender Fees Deposit - By NEFT/RTGS, Cash at the time of deposit of tender etc.
 - c. Extension of due date
 - d. Eligibility Criteria: Turnover in IT field or specific to Imaging
 - e. Income Tax Clearance certificate and VAT Clearance Certificates
 - f. EMD Deposit: Revision of Amount, Deposit as bank guarantee, Exemption for Small Scale Units, INR or foreign exchange.
 - g. AMC & Warranty period
 - h. Duties and Taxes etc.
 - i. OEM Authorisations

Tender document consists of all the answers pertaining to technical specifications, while the commercials have been answered in the modified bid document. The bidder is required to sign all these technical pages to confirm compliance and acceptance to deliver all the items as mentioned, equivalent or better in configuration.

If you have any further queries you may send them in writing to the Administrative Officer Mr. Ajay Kumar Khanduri at the NUEPA office or by email khandur@nuepa.org
