## 1. About the National Institute of Educational Planning and Administration

The National Institute of Educational Planning and Administration (NIEPA) has its origin dating back to 1962 when the UNESCO established the Asian Regional Centre for Educational Planners and Administrators. This became the Asian Institute of Educational Planning and Administration (AIEPA) in 1965. Subsequently, with increasing role and functions in capacity building, research and professional support services to the state governments, this institution became National Institute of Educational Planning and Administration (NIEPA) in 1979. In recognition of the pioneering work done by the organization in the field of educational planning and administration, the NIEPA was conferred the status of a (deemed to be) University in August 2006 under Section 3 of the University Grants Commission Act, 1956 and was renamed as National Institute of Educational Planning and Administration with the power to award degrees. The NIEPA is fully funded by the Ministry of Education, Government of India.

NIEPA is home to India's premier thinking on education and development policy, and its planning and implementation. Further, it provides training support to educational offices in India and abroad. Its unique mix of knowledge through research, teaching, capacity building and training activities makes it sought after destination for researchers. The institutional atmosphere of the NIEPA is rich with academic and co-curricular activities - attracting scholars and practitioners of education from around the world. Our research scholars participate in most deliberations and begin thinking of policy agendas, even as they pursue their academic journey. The academic experience encompasses diverse activities, including cultural events, sports and lectures by distinguished academics and intellectuals.

The NIEPA has a highly qualified faculty that includes specialization across a range of disciplines. This makes NIEPA a truly multi-disciplinary educational institution with proficiency across various disciplines of the social sciences and allied disciplines. The faculty also has a rich national and international academic and professional experience and have published on various themes and sub-sectors of education through various leading publication houses. NIEPA research scholars have also published in reputed national and international journals.

The NIEPA publishes two reputed journals managed by faculty-Journal of Educational Planning and Administration (JEPA) (in English) and Pariprekshya (in Hindi).
