Message from Vice-Chancellor

It is said that teachers are not born to just teach. They are born to improve others, to change people, and to never give up, even when faced with challenges that seem impossible. The 21st century has thrown open a flood gate of challenges for teachers as more and more students from diverse backgrounds enter the system with high aspirations, as public funding reduces and institutions are asked to become more self-reliant, as boundaries of teaching go beyond discipline specific to become interdisciplinary and multidisciplinary, as skills training and holistic development of learners become integral part of higher education and as the stakeholder expectations become multiple and of high order. These challenges are further magnified by the pandemic and the insurge of technology.

In India, the National Education Policy (NEP) of 2020 recognises teachers to be the fulcrum of all activities aimed at achieving national goals of access, enrolments, equity and employability. The Policy envisages the need to provide opportunities of continuous professional development to teachers in the higher education institutions and impart new skills to understand diverse learning requirements, foster community engagement, use technology to promote inclusive and quality education and network globally. As India aims to become the global knowledge leader, the role of teachers is going to become more intense and wide reaching.

The launch of the Malaviya Mission Teacher Training Programme in its new form caters to the diverse needs of the teaching fraternity to become change makers in the real sense. The vision of the Malaviya scheme is embedded in the Indian philosophy of 'Guru' (teacher) being the means of realization. As Swami Vivekananda said anyone can teach but the spirit must be passed on by the Guru to the Shishya (disciple), and that will fructify. The depth in this statement defines the refined role of the new century teacher to be a facilitator, a friend, a guide all in one.

The MMTTC at NIEPA is committed to translate the vision of this mission into true spirit. I am sure that the participants will benefit from the deliberations during the NEP orientation and sensitization programme organized by our Centre. My best wishes to all participants for its successful completion and a bright future.

Prof. Shashikala Wanjari
Vice-Chancellor, NIEPA

From the Desk of the Director

Teachers have been traditionally placed at a very high pedestal in Indian society. Their role in imparting holistic education by mentoring, nurturing innate talents, imparting knowledge, inculcating ethical values and specific skills is well documented in our literature. Who can forget the role that the great philosopher, writer, teacher-Kautilya played in building one of the biggest and most powerful empires in the Indian history, the Maurya Dynasty or the role of the illustrious teacher - Guru Dronacharya in the epic Mahabharata. The biggest lesson to a teacher lies in these words of Swami Vivekanand, “ He alone teaches who has something to give, for teaching is not talking, teaching is not imparting doctrines, it is communicating”.

Today, as we move to the 21st Century, the expectations from the higher education sector and the teachers are becoming more and more complex. The rapid expansion and diversification of higher education in India has added to multi-dimensional challenges of quality, equity and employability. In addition, the increased use of ICT and the global concerns of sustainable development are adding to the responsibilities to the teachers day by day. Teacher shortage and teacher training have thus become one of the prime focuses at the global level.

The Malaviya Mission Teacher Training Programme launched by the Government of India and UGC is a massive endeavour towards capacity development of university and college teachers in new domains, disciplinary advancements, new age work skills and much more in order to become a teacher who can communicate with the minds and souls of the learners. NIEPA has had a long legacy of providing policy support to the Ministry of Education, Government of India and has significantly contributed to research and training of education functionaries across the country and abroad. We feel honoured to be identified as Malaviya Mission Teacher Training Centre to implement the scheme in its new phase.

With immense pleasure, we welcome our participants to the Malaviya Mission Teacher Training Centre, NIEPA and its new batch of NEP Orientation & Sensitization Programme. This programme has been designed in line with UGC guidelines covering 8 thematic areas that broadly covers India's rich traditional heritage to the latest contemporary issues and strategies. Various aspects of the NEP 2020 like curricular reforms, campus development, equity, financing, research, ICT and many more dimensions will be dealt by our experts during the next 8 days. The programme will provide ample opportunities of interaction and hence we request our participants to best take the advantage of sharing their experiences and voicing their queries and concerns. We once again welcome all participants and extend best wishes for successful completion of the course and their onward journey to become more empowered teachers.

NEP-ORIENTATION AND SENSITIZATION PROGRAMME

(3-12 February 2025)

INTRODUCTION

National Education Policy (NEP) 2020 presents a watershed moment in the Indian Education Policy ecosystem. The Higher Education sector is undergoing a major transition in current times. The rising aspirations of the youth and the industry for work ready graduates are putting new demands on the teaching fraternity. The role of the teacher is envisaged to be more of a facilitator and mentor in developing well rounded individuals with skills to cater to the global needs of the 21st century of a more technology savvy and sustainable world order. The capacity building of teachers at all levels has thus been one of the major thrust areas in the field of higher education. Redesigning the higher education ecosystem as envisaged by NEP 2020 requires strengthening the role of the faculty. The Policy emphasizes the creation of motivated, energized, and capable faculty. NEP 2020 also envisions that pedagogy becomes learner-centered with mechanism for continuous, comprehensive evaluation and assessment of learners.

With the aim of Capacity building and continuous professional development of faculty across all levels of higher education, the Central Sector Scheme “Pandit Madan Mohan Malaviya National Mission on Teachers and Teaching (PMMMNMTT) was launched in 2014. The scheme aimed to comprehensively cover faculty in CUs, IITs, State Universities, NITTTR, IISERs, NITs, Deemed Universities and Centrally Funded HEI. In its new phase, the scheme has been renamed as **Malaviya Mission-Teacher Training Programme (MM-TTP)** to be implemented by 111 Malaviya Mission Teacher Training Centres (MMTTC). Furthermore, the scheme is designed to implement some of the recommendations and aims of the policy, which suggest few key changes in the current higher education system to revamp and reenergize it so as to be able to deliver high-quality higher education, with equity and inclusion. This new phase of the scheme also aims to implement the recommendations of NEP viz. to improve the quality of teaching at all levels and in all domains; to focus on equity and inclusion in higher education and promote online and digital education; ensure equitable use of technology; promote Indian language and culture; develop basic infrastructure facilities; create awareness about gender sensitization; include vocational education in the curriculum; develop leadership and management skills; create pool of mentors and pedagogic experts; promote research and multidisciplinary education.

The implementation of new approaches to curricular transactions, teaching-learning, pedagogical strategies and assessment methods recommended in the NEP 2020 are all part of the scheme.

The scheme is built on the philosophy of India's visionary leader Mahamana Pandit Madan Mohan Malaviya who stood as one of the foremost leaders during our struggle for independence, playing a pivotal role in shaping the values and principles of contemporary India. Malaviya ji's vision of providing Indian youth with a holistic education encompassing modern scientific knowledge, practical training, ethical principles, and a comprehensive study of the arts lies at the core of the MM-TTP. The outcome of the capacity-building training will be the metamorphosis of higher education in terms of Indian values, teaching, research, publication, patents, and institutional development.

Vision: To build competencies in the faculty for better teaching, learning, and research by exposing them to Indian values, updating knowledge and skills, and aligning teaching, learning and research with the needs of society and NEP 2020.

The National Institute of Educational Planning and Administration (NIEPA) (deemed to be university), New Delhi has been identified as one of the MM-TTCs to implement the scheme. The current programme on **NEP Orientation and Sensitisation Programme (Online)** is in line with the Vision of the MM-TTP.

NEP ORIENTATION AND SENSITIZATION PROGRAMME

Twenty four NEP orientation and sensitization programmes will be conducted by NIEPA MMTT Centre in fully online mode between October 2024 to September 2025 (Annual Calendar Annexure IV).
